Mr. Hoke read letters dated April 21, 2014 from the Torrey Planning Board approving this action and April 24, 2014 from the Yates County Planning Board approving this application.

Mr. Castelluzzo was asked to present his case. Would like to add a bedroom, office and $\frac{3}{4}$ bath to the south side of his home. He needs an area variance of 3.5' to the side setback requirements of the Zoning Law for a Ag/Res District. His lot is 150' deep but his septic system runs across his rear yard limiting construction in this area.

No one spoke in support or opposition of this application

Marty inquired as to drainage and storm water runoff. This was a concern phoned in by a neighbor to the clerk. He is tied into the drainage pipes of neighbors on the north side of his home. The addition will be on the south side with gutters and downspouts to allow the runoff into the lawn towards David Downey Road.

Code stated this property is a corner lot with two road right a ways, limiting expansion. The variance is minimal, 3.5'.

There being no further discussion, Chairman closed the hearing at 7:08PM

Respectfully submitted,
