A Note from Town Supervisor Peter Martini

As the year 2024 has come to a close, I would like to take this opportunity to highlight some of the activities and issues the Town of Torrey experienced this past year. Perhaps the most significant accomplishment in 2024 was the completion of the municipal water project for Water District One (**WD1**). This was a very challenging project for the Town. It was only with the significant contribution of the Torrey Highway Department and the Town of Benton Water Department supplementing the work of the engineering firm (**CPL**) and construction company (**Nardozzi**) the water project was successfully completed. There were a total of 48 meter pits installed and 26 property owners connected to the main municipal water line. The Town Board in 2025 will now turn its attention to the Perry Point Water District (**WD2**). However this project is dependent on the Village of Dresden completing its Water System Main Replacement project which is tentatively scheduled for June 2026. The Town of Torrey has been tentatively (based on Congressional final budget reconciliation) awarded a \$2.2 million grant for the **WD2** project towards the total cost which is budgeted at \$2.8 million.

The Town in 2024 has also been awarded two grants totaling \$2.67m for culvert replacement work on Perry Point Road. This work will be undertaken in 2025 coordinated by the Hunt Engineering firm.

Another important accomplishment in 2024 was completion of the property revaluation in the Town of Torrey by our assessor, Stephanie Holtz. This resulted in an increase of taxable property value to \$287,133,158 with the town accounting for \$264,042,034 while the Village of Dresden value was set at \$23,091,124.

This past year also included a much needed upgrade to our phone system in the Town Building. Calls now will be automatically directed to the desired individual- assessor, highway superintendent, judge, and/or town clerk as well as provide a mailbox option.

The Town Board also continued its environmental initiatives with its annual "Cleanup Day" in June as well as its first "Earth Day" roadside pickup. The town board members were joined by many community volunteers to make each event a success.

The Town of Torrey held its 102nd Memorial Day Observance at the Gazebo in the Village of Dresden and concluded with a ceremony at the Evergreen Cemetery.

The 2024 year concluded with the Town Board working diligently on developing the Town Budget for 2025 (see the breakdown in the following section for more details). This proved to be very challenging given the significant rise in the cost of materials, services, and insurances the Town Board confronted. Let me assure you, the Town Board did its best to keep the tax rate as low as possible while at the sametime providing the necessary services you the taxpayers require.

Finally, let me encourage you to attend the monthly Town Board meeting which is held on the second Tuesday of the month at 7:30 pm at the Town Building on Geneva Street. You will not only have the opportunity to see the issues facing the Town of Torrey discussed, but you will also have the opportunity to bring forward your concerns and comments on town issues.

From the Desk of Town Board:

- The Town Board meets the second Tuesday of the month at 7:30 pm in the Town Building at 56 Geneva Street, Dresden, NY.

The Yates County Soil and Water Conservation District provides the watershed inspection services for the Town of Torrey and Village of Dresden. Educating homeowners on the function of their wastewater treatment systems has proven to be a tremendous benefit.

In November of 2014, the Town of Torrey passed a local Wastewater Law effective January 1, 2015. Under the new law, any onsite wastewater treatment system within 200' of Seneca Lake or a DEC classified stream is required to be inspected every 5 years. The cost of the inspection is borne by the Town of Torrey (unless this is a property transfer). However any pumping of the septic or repair is a cost to the homeowner. We are now in year 9 of these inspections.
